

KLove serves me as a resident of the community by ministering to my many needs. I am an alcoholic in recovery going on 8 years and in the middle of a divorce. The first time my husband did not come home I was driving around and lost at best. I tuned into KLove and the song that was playing ministered to me when I wasn;t even looking for it. That was the first of many times this has happened. I believe the effect of losing KLOVE to an LPFM broadcaster would be devistating to me and many others. There area plenty of young adults in this community that reap rewards and are guided by the music and messages on this station ( I have a 26 yr old son and two teenage daughters and a daughter in law that live by this station. Ibelieve KLOVE provides a service that protects our public because at just the right moment that a teen or adult may be on the brink of misbehaving or making a bad choice, they will be like me and hear something that turns them from that and to the thought of Christ and to prayer, saving our community from wrong doing and disasters and tragedies. Thank you for your time. Please do not take our station or replace it.
